DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Marc Vivencio on 9/15/08.

The application has been amended as follows:

For claim 1, line 2, delete "preferably" and "with", and insert ---;--- after "rings".

For claim 2, replace "wherein the base part is made from the same metal as the two side portions" with ---wherein the base part and the two side portions are made from metal.---

For claim 11, line 2, delete "for example".

For claim 12, replace "wherein in each side portion there is provided an outer hole defined by outer axes, the outer axes spanning a first plane, that the two joint holes of the central portion having parallel hole axes defining a second plane and that the first plane extends" with ---wherein each side portion includes an outer hole defined by outer axes spanning a first plane, the two joint holes of the central portion have parallel hole axes defining a second plane and the first plane extends---.

For claim 13, replace "wherein in each side portion there is provided an outer hole defined by outer axes, the outer axes spanning a first plane, that the two eyes are

defined by eye axes spanning a third plane and that the first plane extends" with --- wherein each side portion includes an outer hole defined by outer axes spanning a first plane, the two eyes are defined by eye axes spanning a third plane and the first plane extends---

For claim 18, lines 1-2, replace "wherein in each side portion there is provided an outer hole defined by outer axes, the outer axes spanning a first plane, that," with --- wherein each side portion includes an outer hole defined by outer axes spanning a first plane, such that,---

For claim 19, line 2, insert ---about--- before "85°"; in line 3, delete "that".

For claim 20, replace "wherein in each side portion there is provided an outer hole defined by outer axes, the outer axes of the outer holes intersecting beneath a horse's tongue when the bit is placed in the horse's mouth" with ---wherein each side portion includes an outer hole defined by outer axes, and the outer axes of the outer holes intersect beneath a horse's tongue when the bit is placed in the horse's mouth.---

Allowable Subject Matter

2. **Claims 1-21** are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose or render obvious a double-joined horse bit as claimed in detail, especially the feature of a ring, wherein the ring is substantially located between the two joint holes and is bounded by radial surfaces, the ring has an outer diameter A, an axial width B, and an axial hole having an inner diameter L; a peripheral groove for movably receiving the ring and for securing the ring from being lost is formed in the base part,

the groove having an axial width W that is slightly greater than the axial width B , the base portion has, in the region of the groove, a core diameter D that is smaller than the inner diameter L of the hole; and the groove is bounded by a rim having a rim diameter R that is not greater than the outer diameter A , wherein the core diameter D is at least one millimeter smaller than the inner diameter L of the hole and the ring is allowed to radially move back and forth, and that twice the hole diameter L is smaller than the sum of the rim diameter R plus core diameter K and the hole is always hidden.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
